For more positioning options turn to page 12.

Connect the TV Plate with the Adaptors to the TV in all 4 connection holes.

Optional – Corner installation

Functionality may vary depending on the distance from the corner.

Max. TV Size
80" / 203cm

2

Install the bracket on the Wall

Measure the distance between the location of the TV's mounting holes' center and the bottom of the TV, in order to set the required height of the TV.

Make sure the distance between the 2 holes is correct.

3

Make sure all holes are drilled inside the studs.

Mark the holes on the wall according to the required height.

4

Use a Stud Finder E

E

4a

Drill with 5/32" \ 4mm drill bit.

4b

First use 1/4" \ 6mm drill bit.

Afterwards use 3/8" \ 10mm drill bit.

The anchor must be sunk at least 3/8"/10 mm into the plaster coating.

5 Paste the 6 stickers on the Plastic Covers.

6 Assemble the Wall Plate Plastic Covers.

7 Connect the Front Arms (B) to the Bracket (A).

8 Weight test.

Apply force on the upper part of the Bracket and make sure it is well connected.

9 Place two nuts (Z8) in the nut-housing (P2).

10 Assemble the nut-housing (P2) make sure that the tab is inserted into the slot.

11 Assemble part (P3) on the nut-housings (P2). push P3 down until the small part that looks like an upside down "T" passes the highlighted tooth.

12 Place the bracket upright and connect the TV plate with the TV.

Make sure that the TV Plate slots are positioned properly on 2 small beams (Front Arms).

13 Insert and tighten the screws from both sides to create friction for the tilt mechanism. Adjust the TV tilt angle carefully.

14 Place the TV cables in the Cable Management.

15 Level the TV.
