Handcrafted for life

A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL

THE STORY CRAFT TELLS

Shaws is a member of the House of Rohl, a collection of artisan brands recognised for their artistry and heritage.

The Rohl family have spent a lifetime seeking stories of dedication, passion and craft. They have brought together diverse brands, exceptional in their category, that complement each other. Independent spirits, but shared values. A belief that quality starts with the material, design is in the detail and craftsmanship is paramount.

Distinctive stories are what makes life exceptional. At the House of Rohl, we discover time-honoured craft, revealing stories unlike any other. Stories of place and provenance. Stories of ingenuity and invention. Stories of a relentless pursuit of perfection.

Welcome to the House of Rohl®

When Shaws of Darwen was founded in the closing years of the 19th century, we had a vision – to make the finest handcrafted fireclay sinks in the whole of England.

Today, some 125 years on, that vision has been more than realised; Shaws now enjoys, not only a national, but a worldwide reputation for the beauty, quality, craftsmanship and sheer practicality of our unique artisan products.

So much so, every handmade Shaws sink carries an impression on its base of the name of the master craftsman who created it. This, along with our Certificate of Authenticity, is your assurance that your investment has been handcrafted for life.

Inspired by the way you live.

Our sinks, as seen on your Instagram.

Type 9

Dimensions: 822mm (W) x 375mm (D) x 26mm (H).

Compatible with: Butler 1000.

Handcrafted the same way for 125 years

Iconic, timeless, aspirational and tactile, each sink is an original design, handcrafted to give a lifetime of service and pleasure.

At Shaws we don't believe in mass production; we believe in quality, individuality and authenticity in all we do. It takes time to hand-make Shaws sinks, between three to four weeks in total, using time-honoured techniques that have been passed down from master craftsman to apprentice for well over a century.

Known as 'slip casting', the process begins with a mixture of locally sourced clay and water being poured into porous moulds – by hand, naturally.

When the newly formed sinks are dry enough, craftsmen remove them from their moulds before getting to work doing what they do best – expertly hand-finishing these artisan products through a process of sponging and 'fettling' to create a smooth surface.

It's at this stage that the master craftsman proudly imprints his name on the base of his creation, before leaving the sink to gradually dry out for a period of over 40 hours. Only then are the sinks deemed ready to be prepared with a first coat of glaze, before being glazed for a second time to improve the feel and durability of the product. Firing in specially designed kilns at temperatures of over 1,200 degrees Celsius completes this rigorous process.

Our heritage is reflected in the names we give our products today. These are carefully selected as a tribute to the local communities and villages that have provided homes for our craftsmen and their families for 125 years.

OUR BELIEFS

Our promise

We believe wholeheartedly in delivering on our promise:

To make the most beautiful, practical, handcrafted fireclay sinks in the world.

We believe in being authentic in all we do, using traditional, time-honoured techniques to produce iconic products that grace the finest establishments and homes the world over.

We believe that our reputation for delivering quality and reliability is as important as producing timeless and elegant design pieces; that's why every Shaws sink comes with a lifetime guarantee.

We believe that every sink that bears the Shaws name should be a thing of beauty, a unique creation, with a charm and character all of its own, bearing testament to the skill and expertise of the master craftsman who lovingly and painstakingly created it.

All Shaws fireclay products *are handcrafted for life*.

Caring for your Shaws sink

Shaws sinks are proven to be incredibly durable and long-lasting. To keep your investment looking at its best, we recommend it be cleaned daily using a soft sponge or cloth and a non-abrasive cleaning product – a simple solution of soap and water generally does an excellent job.

> Although extremely hardwearing (being heatproof, resistant to impact, chemicals, dirt, stain and odours) not even a Shaws fireclay sink is impervious to damage.

> So, if a metal pan or cutlery marks the surface of your pride and joy, we have a range of accessories that will easily restore it to its original beauty.

Our Warranty

At Shaws our promise to you is to provide the best sinks in the world, backed up with outstanding personal customer service. That's why all our products are not only of exceptional quality, but carry comprehensive warranties to give you total peace-of-mind.

All Shaws sinks carry a Lifetime Warranty

PLEASE NOTE, our sink dimensions can vary by a plus or minus of 2%, as they are hand-made and shrink during firing. We therefore recommend that your kitchen fitter is aware of this and that no work surfaces or cabinets are cut before measuring your sink. Due to the handcrafted nature and weight of our sinks, we also recommend a specialist kitchen fitter installs your sink and that it is properly supported.

Please see website for warranty details of our sinks, taps and accessories.
